

Bino Three-tier Desktop Stand

Box Contents:

a) Screws (12x)

b) Wood Shelves (3x)

c) Metal Frames (2x)

Note: Use the screws for fitting the wood shelf to the **metal frame** at screw plates.

1) Make sure that the shelves are positioning during installation as shown in the figures.

2) Align the metal frames side by side and place the shelves on the frames. **Wooden shelves are placed between metal wire lines.** (Screw plates should remain under the wooden shelves.)

3) During the assembly, make sure that the wooden parts firmly placed between the 2 frames before screwing.

4) Mount by reversing the the metal frames with the help of another person, start the screwing process from top to bottom.

5) Your product is ready to use.
